

About Blue Care

Our Mission - To promote and deliver quality caring services based on the compassion of Christ.

About Blue Care

Supporting people to remain independent for as long as possible is our passion. We provide this support to people at home, in the community and in our residential aged care facilities.

As part of the Uniting Church, we have a long and proud history of providing compassionate, holistic, quality care.

Blue Care began as the Blue Nursing Service in 1953 and has grown into one of Australia's leading providers of community health and residential aged care.

Every day, we support over 11, 000 people through our nursing, allied health, personal care, domestic assistance, respite, social support, pastoral, and volunteer services.

Our services are provided through more than 260 centres located across Queensland and northern New South Wales. The majority of these services are targeted at supporting the elderly and younger people with a disability.

Our people

Blue Care employs more than 9 500 professional people with specialist skills who, supported by volunteers, deliver care that is personal, trusted and compassionate.

It is our people and the day-to-day partnerships they have with our residents, clients and their families/carers that drive the services we provide that are uniquely Blue Care.

Our multidisciplinary teams include:

- Generalist and specialist nurses
- Allied Health professionals (physiotherapists, occupational therapists, social workers, podiatrists, speech pathologists, dieticians)
- Personal carers
- Respite carers
- Domestic assistants
- Chaplains
- Volunteers

Our staff and volunteers work in partnership with other service providers such as General Practitioners, hospitals, other community and social service providers and government bodies

Accessing our care and support

Our services take into account each person's needs and circumstances. Staff at local Blue Care centres will help with information specific to care and support needs. Local centres can be found by visiting our website at www.bluecare.org.au or through the White Pages.

Some services require a written referral from a General Practitioner or assessment by the Aged Care Assessment Team (ACAT).
