

Residential Care and Support Options

Blue Care provides a supportive, safe and secure environment for residents through a range of accommodation including low and high care residential facilities, independent living units and special purpose dementia units

Our residential services provide quality, caring environments that support our residents' choice and promotes their quality of life.

An assessment is required for entry to our facilities. This can be arranged with the Aged Care Assessment Team (ACAT). Details for your closest ACAT is available from Commonwealth Carelink on 1800 052 222.

Low care (hostels)

Our low care hostels are for people who may require assistance with daily living activities such as showering, dressing, laundry, cleaning, managing medications as well as maintaining participation in lifestyle and social activities of choice.

Many facilities enable access to outdoor seating areas and gardens, and may include a coffee shop and areas to entertain family and friends.

High care (nursing homes)

Our high care nursing homes provide people with ongoing nursing care and support services such as allied health care in addition to assistance with activities of daily living.

These facilities offer a variety of lifestyle activities and programs and have recreational areas for residents and visitors.

Independent retirement living

Our independent retirement living facilities give residents the freedom to manage their daily lifestyle with the added benefit of access to community facilities, social and recreational activities, maintenance and security.

Residents may be able to purchase additional services such as meals, laundry services and cleaning to support their ongoing independence. The full range of Blue Care community services is available to residents.

Quality of our services

All of our services are subject to external quality and accreditation processes and must pass a series of checks to operate. We are committed to quality service provision and continue to receive industry awards for standards of excellence in care delivery.
